ABSTRACTED-PUB-NO: JP 01268615A
BASIC-ABSTRACT:

The material contains 0.1-30 wt.% of polymethylsilsesquioxane powder of average particle size 0.1-10 um and mesh fractionation +/-30% of average particle size.

USE - The material is used in cosmetic material for skin and hair and medical prods. for external application in various forms e.g. cream, water in oil type emulsion, oil in water type emulsion, solid material such as lip stick and lotion. It offers smoothness to skin without greasy feeling when applied. It has excellent moisture retention property.
